July 2021

LET'S MAKE OUTDOOR LIVING SPACES MORE VALUABLE THAN EVER BEFORE

Inspired by the natural beauty of linen fibres and their refreshing qualities, Spradling® has created Linetex®, a perfect coated fabric for summer, coming in **16 shades**.

Upholstery comfort guaranteed with PermaCool

With Linetex®, furniture exposed to sunlight will no longer suffer from overheating, thanks to *PERMACOOL* 

This innovative technology acts as reflective protection that reduces the amount of radiant energy or heat from being absorbed by any surface, also making Linetex® a long-lasting alternative that provides enhanced durability to your upholstered creations.
