Bathrooms inspired by life

LAFERGA

BIG PICTURE OF DESIGNING

BATHROOM FURNITURE | WASHBASINS | TOILETS | BATHTUBS | SHOWER ENCLOSURES | BATHROOM FITTINGS

LARGA

LARGA is a collection that comprehensively answers the question: how to furnish a modern bathroom to the 21st century standards in the easiest way possible. And in your own style. Without the help of an architect. This is all thanks to the modularity and diversity of the concept, which allows you to complete bathroom products of all categories within a single collection. Freedom of arrangement supported by confidence in the technologies used and quality certificates of the materials utilized, simply have to impress.

THE IDEA OF COLLECTION ACCORDING TO LARGA DESIGNERS

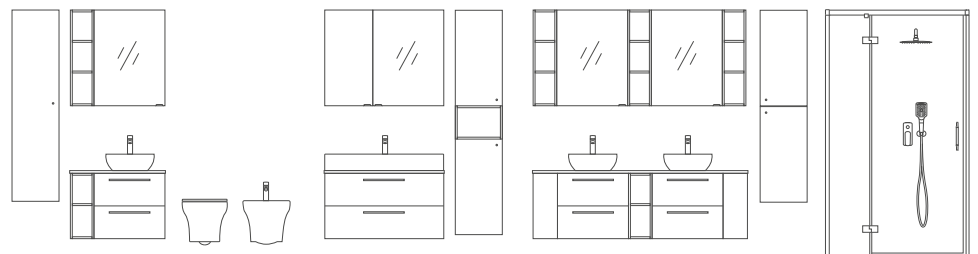

MIROSŁAW ZAPORA
CERSANIT senior designer

I wanted to create ceramics that were warm, gentle and solid, but also light and elegant. I achieved that effect by giving the solids an embossing, a gentle touch - on the bowl and on the washbasin. They look like they were hovering. Their lightness is also emphasized by the slim edges. The grace of LARGA comes from a stylish idea and modern technology.

AGNIESZKA PIKUS
CERSANIT designer

When designing LARGA furniture I was guided by the idea of creating a collection that would make for a variety of furniture compositions, open and closed, symmetrical and asymmetrical, large and small, monochrome and contrasting, minimalist and glamorous - so that when arranging a bathroom with the LARGA collection nothing could limit us, except for our imagination.
