**Pabianice Tools Factory PAFANA Joint-Stock Company (JSC). Established in 1945.**

In 2022 the company is celebrating 77th anniversary of its foundation. That is why we are proud to present a Polish company with many years of tradition as a manufacturer and exporter of machine tools.

At the beginning of its operation the company focused on manufacturing agricultural and crafts tools - according to market demand.

Subsequent stage of the company operation brought implementation of high-speed steel turning tools and brazed turning tools with a welded inserts made of sintered carbide, necessary for the domestic market technological development and export needs.

In 1974 Pabianice Tools Factory PAFANA purchased a licence of the Swedish company SECO for a construction and manufacturing of toolholders. The implemented technology based on technologically advanced machine tools, equipment and accessories helped achieve high quality of the manufactured tools.

In 1996 Pabianice Tools Factory PAFANA was subject to ownership restructuring and became a Joint - Stock Company taking the full name of Pabianicka Fabryka Narzędzi PAFANA Spółka Akcyjna (Pabianice Tools Factory PAFANA Joint-Stock Company).

Further improvement of machine tools and implementation of construction solutions made the production programme meet the requirements of contemporary machine resources.

Using modern, energy saving and green technologies the company ensures competitiveness of its products against the best global tool manufacturers.

The company has implemented the Quality Management System ISO 9001:2015 and Environmental Management System ISO 14001:2015, which guarantee the highest quality of products.

**A wide production programme of PFN PAFANA JSC. covers:**

**- toolholders for replaceable indexable inserts, with the following insert fixing systems:**

- „S” SYSTEM
- „P” SYSTEM
- „M” SYSTEM
- „C” SYSTEM;
- toolholders for grooving;
- toolholders for parting and undercutting;
- toolholders for threading ;
- toolholders for ceramic inserts;
- milling cutters and face milling cutters;
- boring bars;
- "MULTI PAFANA" boring modular system;
- indexable insert drills;
- counterbores;
- toolholders for parting and undercutting;
- brazed turning tools, High-Speed Steel turning tools;
- carbide end mills SMart-line Pafana;
- solid carbide twist drills SMart Drills Pafana 3xD, 5xD, 8xD;
- hand taps for metric threads SMART TAPS PAFANA;
- 3 – flute countersinks plain shank COUNTERSINK TOOLS PAFANA;
- indexable inserts made of sintered carbide, grooving inserts, inserts for threading, for parting and undercutting.

Furthermore offered products include:

- good technical resources, modern machines and technologies allowing for making special tools, developed according to the customer needs and production services within CNC machining.

**Laser technology: medical implants, 2D and 3D laser processing.**

PABIANICE TOOLS FACTORY "PAFANA" Join-Stock Company in Pabianice, Warszawska str. No. 75, PL 95-200 PABIANICE.

District Court for Lodz-Śródmieście in Lodz, 20th Department of the National Court Register, KRS NUMBER:0000165823, NIP (Taxpayer Identification Number):731-14-31-510 (EURONIP:PL7311431510), REGON (National Official Register of Business Entities Number):471473481, Initial capital: 2 043 400.00 PLN. Capital paid up: 2 043 400.00 PLN.

P.F.N. "PAFANA" S.A. UL. WARSZAWSKA 75, 95-200 PABIANICE, tel.: +48 506 293 584, fax: +48 42 215 40 72, e-mail: pfn@pafana.pl, [www.pafana.pl](http://www.pafana.pl)

**The latest production offer includes individual medical implants for people and animals. The implants are made on the last generation of Laser 1300 Da Vinci hybrid machine - machining and laser machining on a single CNC machine. The use of the latest technology and the highest quality materials allows the implants of the highest application spectrum in the medical implantology to be achieved. These are development activities in new technologies as well as oriented to a social role of such a type of products.**

## PAFANA - MODERN MACHINERY RESOURCES - MODERN TECHNOLOGIES

Production and services are based on modern CNC machining centres and high class auxiliary machines:

- Laser 1300 Da Vinci - new technology - processing hybrid: machining and laser processing on a single machine CNC.
- HERMLE C30 U. CNC. 5-axis vertical milling centres.
- CHIRON FZ 12S. CNC. 5-axis vertical milling centres.
- FAMOT 400 CNC. 2-axis grab and centre turning centres.
- CTX 420 L CNC. 4-axis vertical milling centres.
- CNC Michael Deckel S20E 5-axis vertical grinding centres.
- SODICK A320D AWT EX21. Electro-erosion machine.
- Six-spindle turning mechanisms: SCHÜTTE SE16 and SE25.
- PeTeWe optical shaped grinders.
- PEGAT 950: Thermal treatment.
- RŪSCH - material cutting.
- 3D printer.
- TSUGAMI B0206E-III. Swiss type automatic lathe, 6-axis.
- PUMA 2600SY – turning centres.
- GX360L CHMER - Electro-erosion CNC.
- DMU50 - 5-axis universal milling center from DMG MORI.

One of our operation forms is supporting companies by providing tailor-made tools according to individual technological requirements. Special software allows for using a modern CNC tool grinder for sharpening and manufacturing tools made of sintered carbides and rapid tool steel.

We also provide services within:

- brazing – NG-40;
- plastic forming, mechanical cleaning, spray painting.

## PAFANA - YOU WILL BE SUCCESSFUL WITH US.

PLEASE REMEMBER!

The mission statement of PAFANA S.A. is:

" We support our Customers' development, by delivering effective solutions in machining, as a loyal partner and a competent advisor."

## Our motto is: ADVISING AND LOYALTY.

– this is the contemporary PAFANA, a modern company with great prospects for development, you can rely on.

## WE WILL BE SUCCESSFUL TOGETHER.

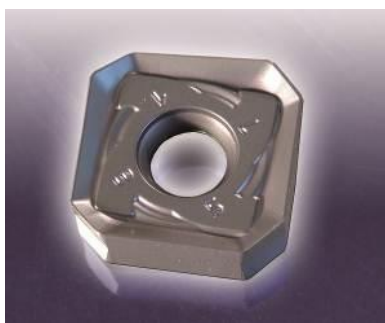

We are looking forward to working with you. E-mail: [marketing@pafana.pl](mailto:marketing@pafana.pl)
