

METAL PROCESSING CLUSTER

P r a c t i c a l i n e v e r y i n c h

METAL
PROCESSING CLUSTER

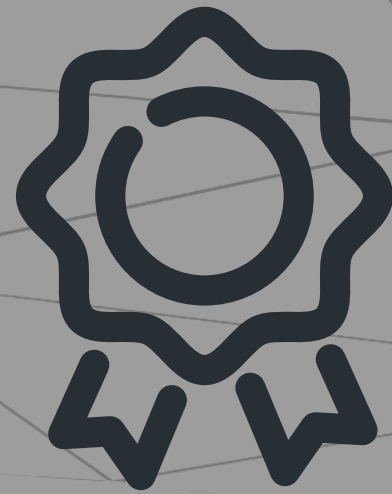

MPC headquarter

RANGE OF OUR DOMESTIC ACTIVITIES

METAL PROCESSING CLUSTER

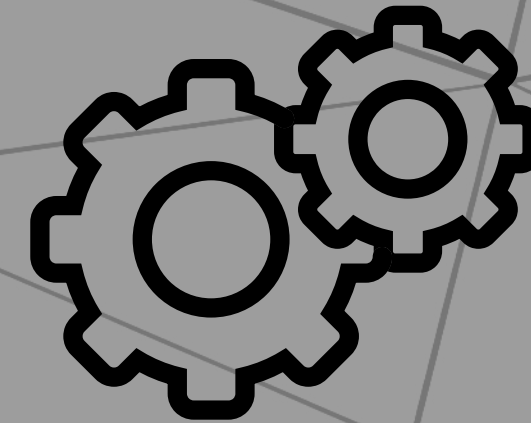

1 OF 15

Key National Clusters in
Poland
MPC is officially recognized
by the Polish Government

**THE BIGGEST
CLUSTER**

in the machine-metal
industry in Poland

NETWORK

of the stakeholders,
implementing advanced
production solutions and
equipping current factories
for the future

“ WE INSPIRE FOR CHANGES
TO DEVELOP AND
COMBINE POTENTIALS ”

- Metal Processing Cluster TEAM

MPC

PROJECT PARTNERS

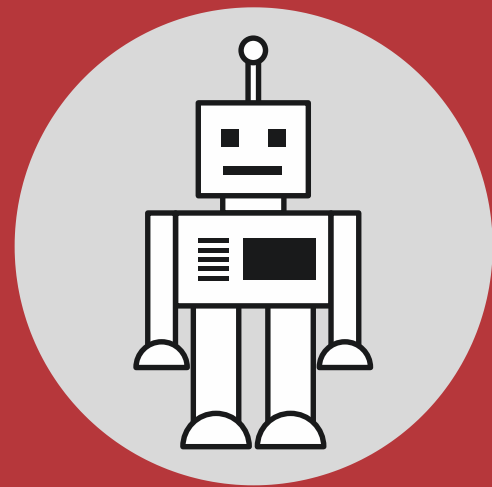

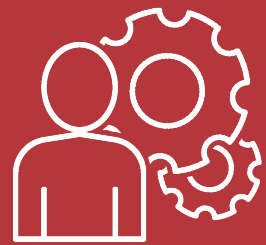

-  Food Technologies Digitalization
-  MetalIndustry4 MI4
-  Cimes
-  REI Reindustria Innovazion
-  Moravskoslezský automobilový klastr, z.s.
-  Institut für Betriebliche Bildungsforschung IBBF
-  South West Hungarian Engineering Cluster
-  North Hungarian Automotive Cluster
-  The Transylvania Metal Processing Cluster PrelMet
-  Volyn Regional Foundation for Supporting Entrepreneurship
-  Association of Engineering and Metalworking industries of Latvia
-  Cluster MADE

MPC

MAIN WORKING AREAS

automation
& robotics

machining

production
management

steel
structures

machine
production

agriculture

automotive

medical

yachting

MPC

PRESENCE AND EVENTS

MPC

IN NUMBERS

→ MORE THAN
130
MEMBER ENTERPRISES
AND STRATEGIC PARTNERS

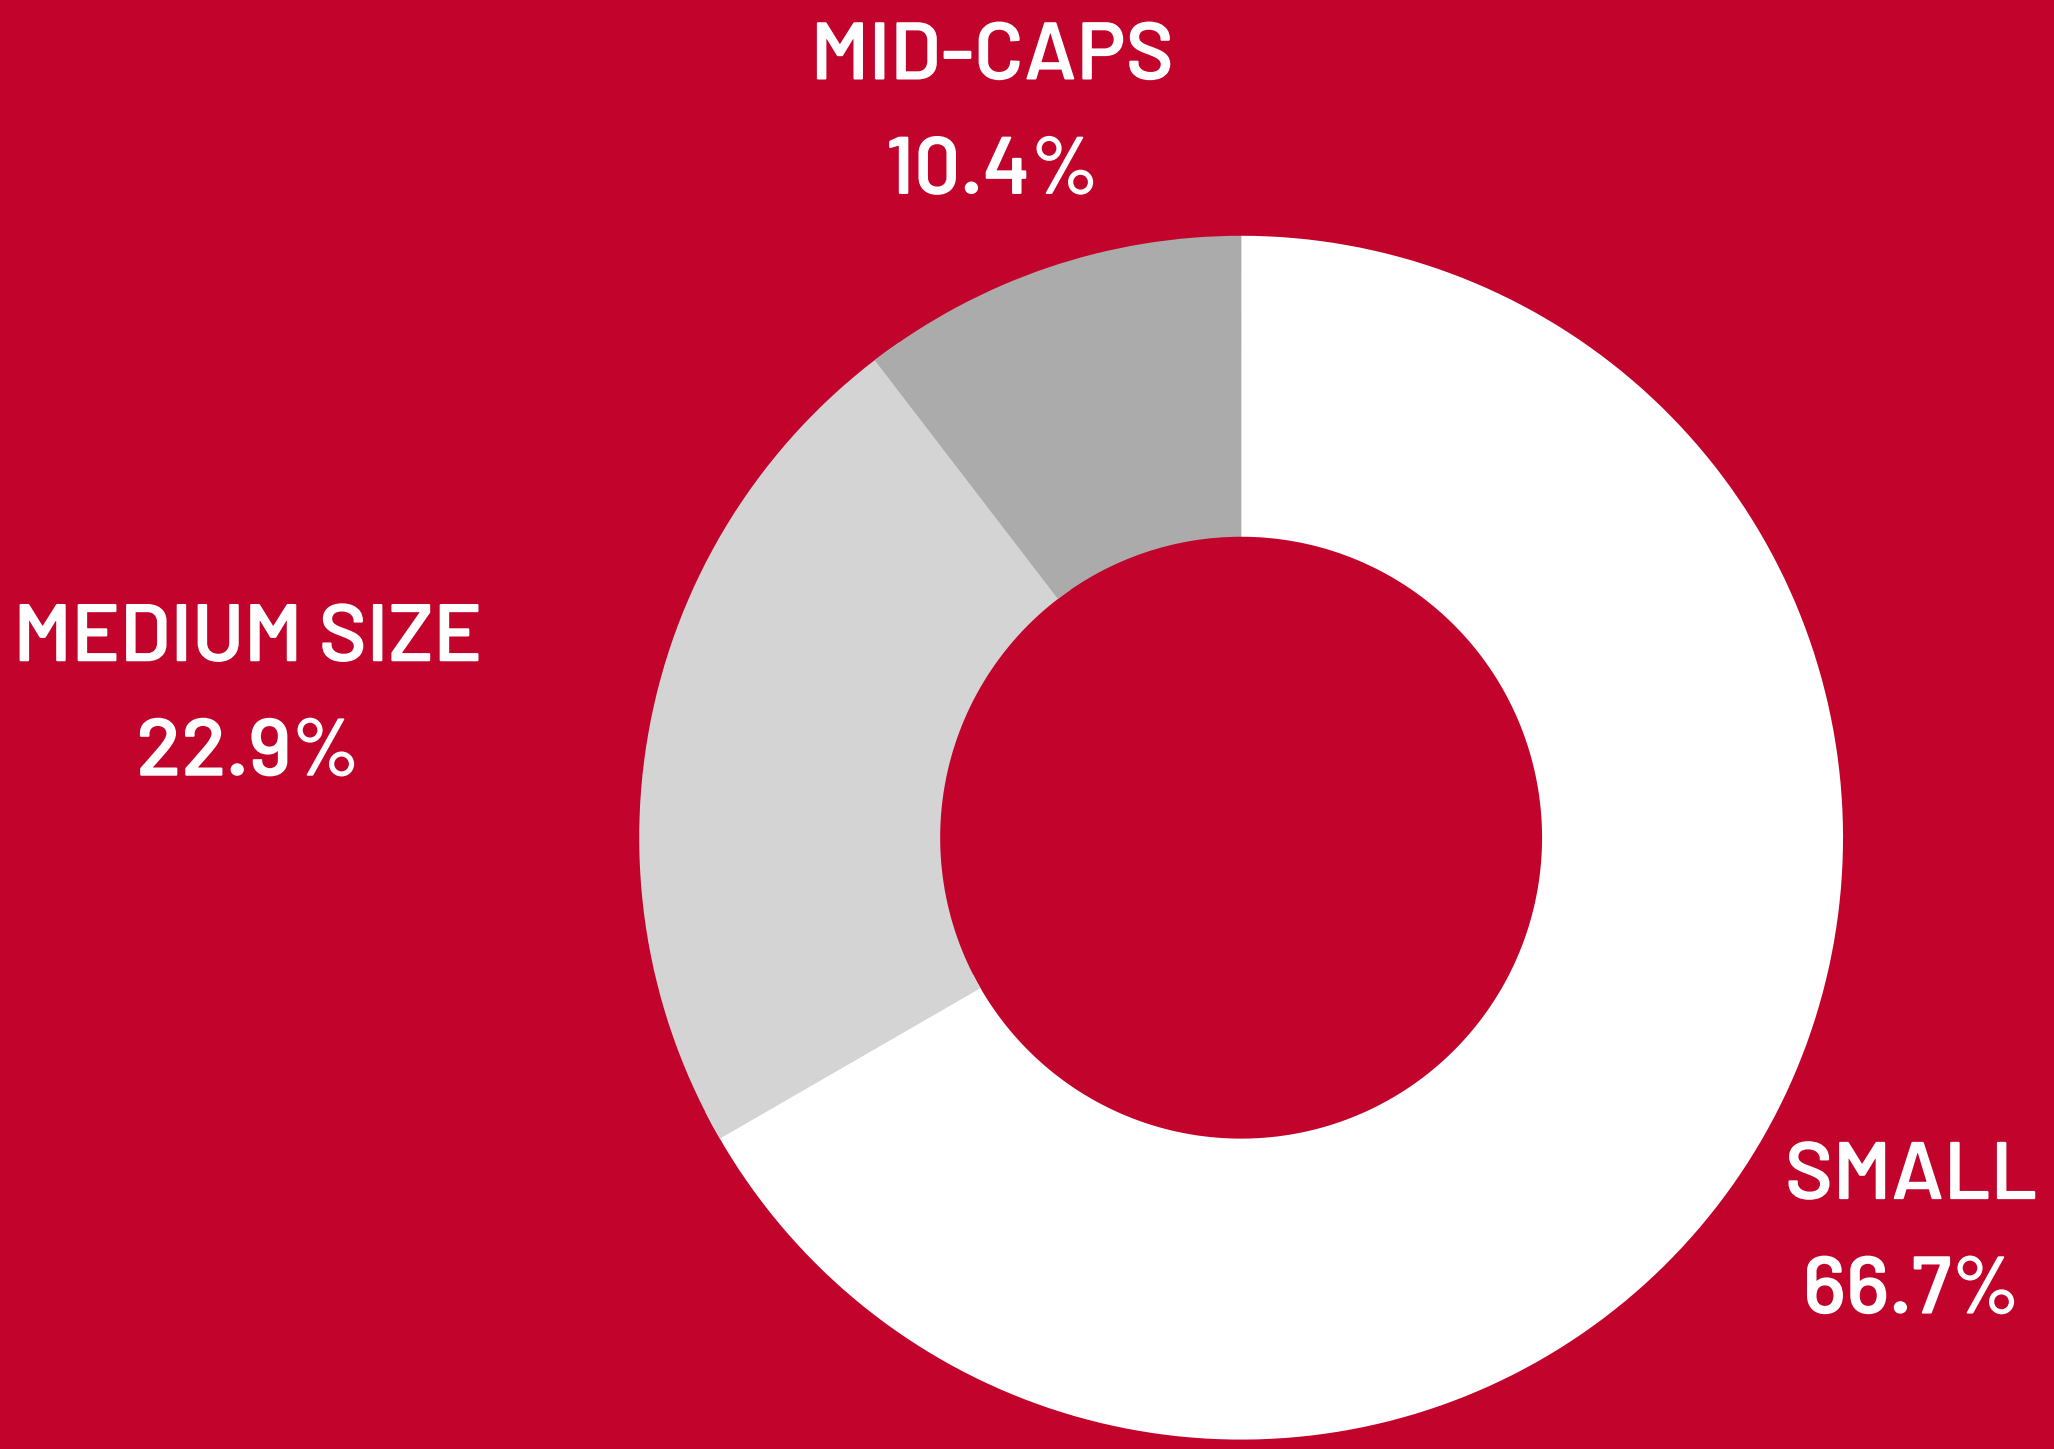

→ MORE THAN
9000
JOBS

→ PRESENCE FOR OVER
100
EXPORT MARKETS

→ MORE THAN
540 M EUR
REVENUE FROM EXPORT

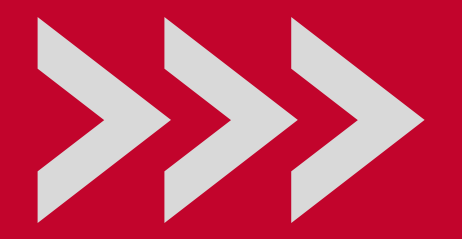

→ **40%**
REVENUE FROM
EXPORT

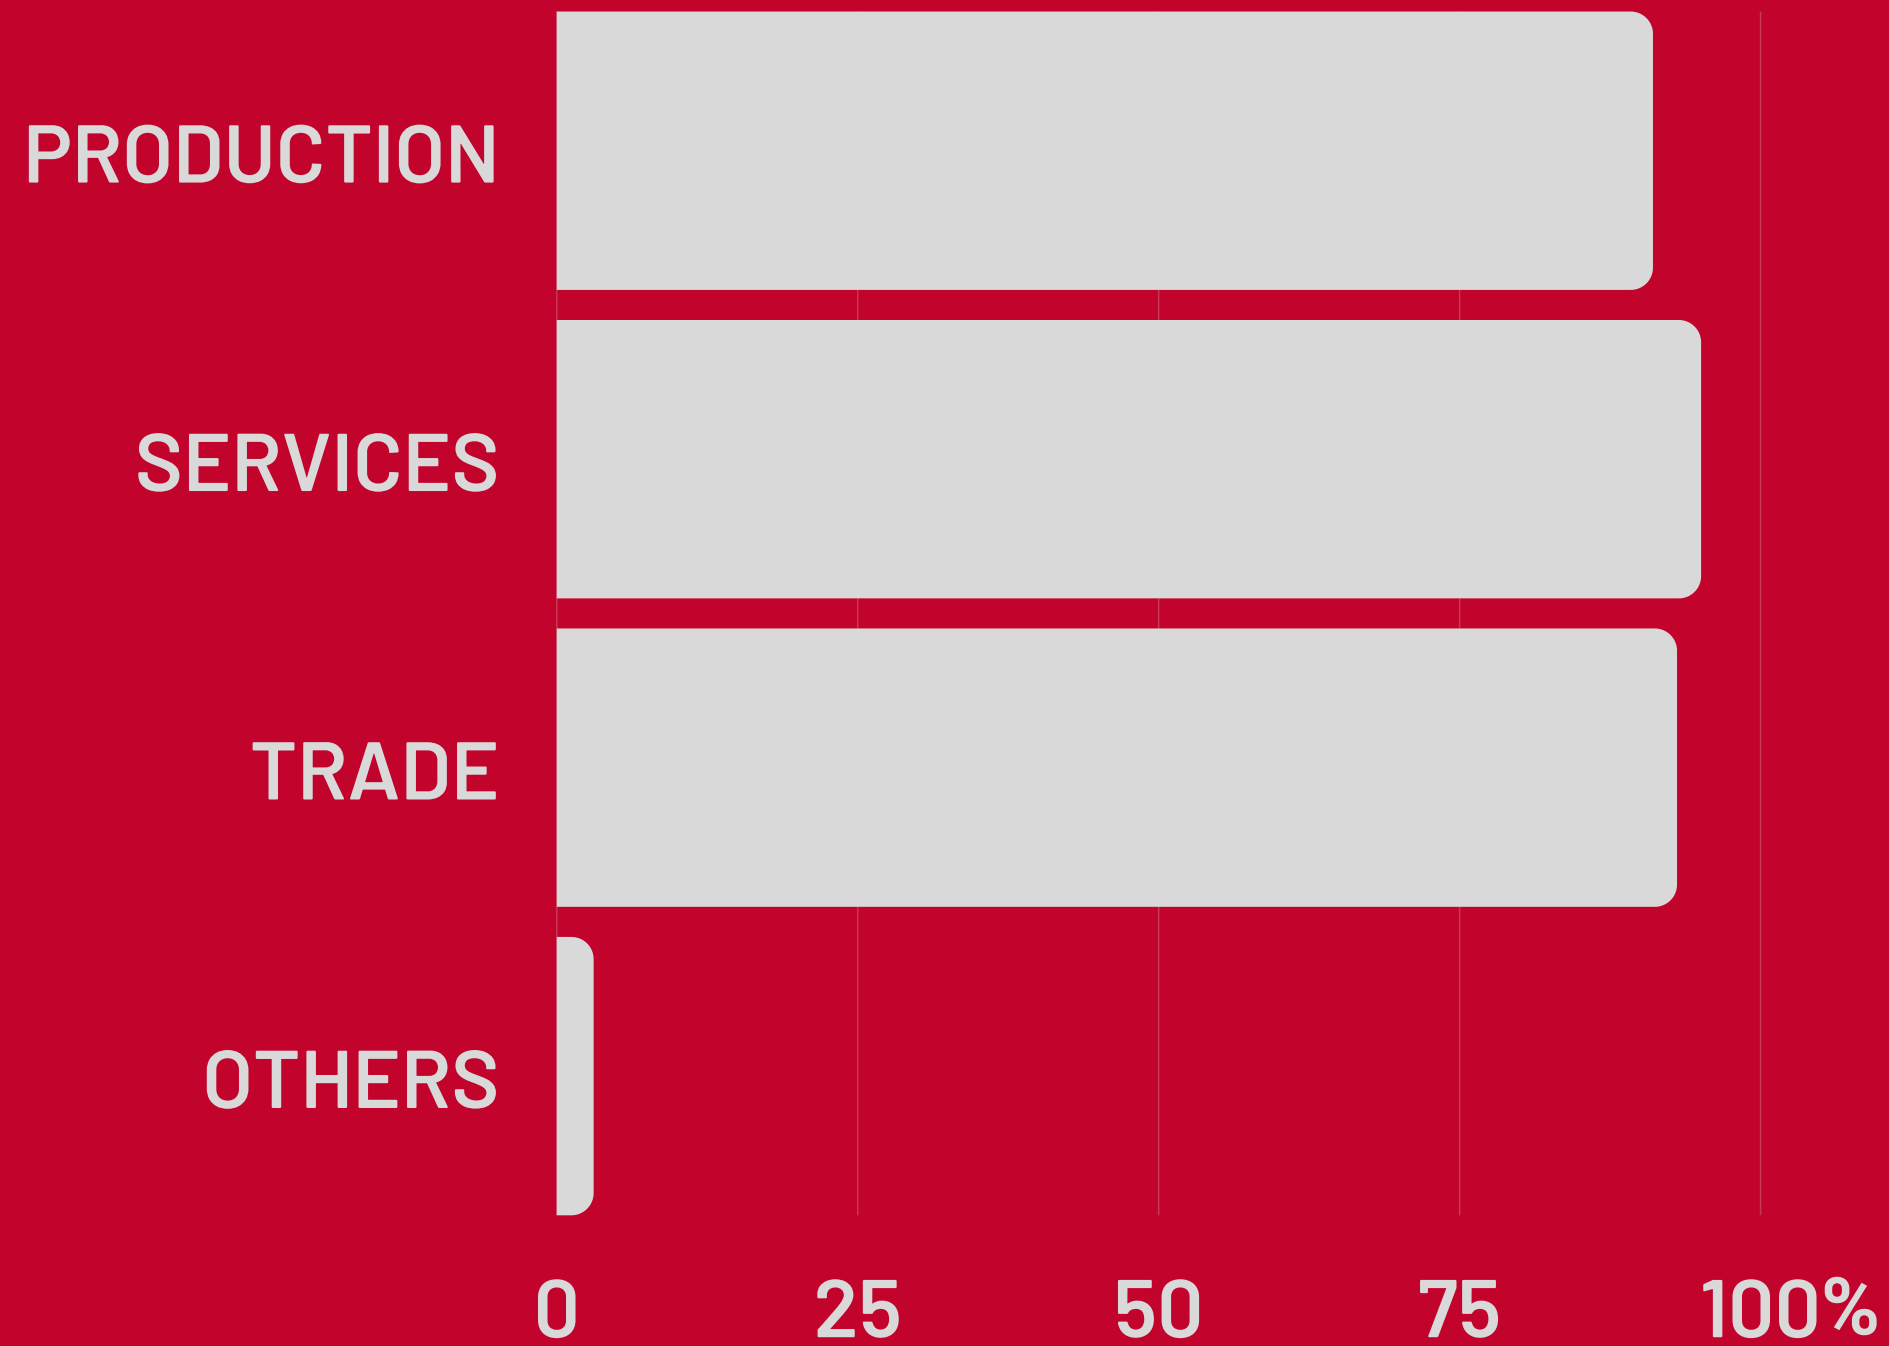

MPC MEMBERS

COMPANY SIZE

MPC MEMBERS

SPECIFICITY OF THE ENTERPRISES

AREAS OF COLLABORATION

C2C

INTERNATIONALIZATION

Activities supporting internationalization of the cluster and cluster companies

CROSS-CLUSTER COOPERATION

EU projects implementation

- increasing the competences of cluster employees
- promoting vocational education, competences 4.0
- raising funds for R&D
- internationalization

B2B

SALES PROMOTION

Promotion of products manufactured by members

COOPERATION

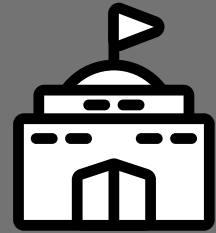

Subcontracting services at metalworking: machining, abrasive machining, erosion machining, protective coatings, thermal treatment, material bonding, machine design and construction, instruments and moulds, design and prototyping

COMMON PROJECTS

- improving efficiency and production technology
- creating new products
- digitization of manufacturing processes
