

Vaqaat is a platform where companies outsource intern-like tasks to pre-vetted students and can hire the best of them full-time

Every employee of a registered company...

Once a company registers, each employee can create his / her own profile under the company account

... can outsource intern-like tasks...

Employees can outsource intern-like tasks, such as market research, translations or slide development

... to verified students...

Students' skills are verified through our built-in assessments (e.g., Excel or Python) and previous feedback reports

... who could turn into future employees!

Project performance report is shared with the company's HR, which can identify top candidates for future recruitment

With Vaqat, employees get extra support, recruiters identify top talent, and students explore various careers

Employees

- Outsource tasks to improve work-life balance and job satisfaction
- Get matched with motivated students from leading universities
- Get extra support within hours for a few hours, days or weeks

Recruiters / Executives

- Assess potential candidates in a real work environment
- Build relationships with students globally and early-on
- Increase employer branding at hundreds of universities at once
- Provide an employee perk to existing staff by allowing them to work less

Students

- Get relevant work experience
- Explore various careers without committing to one full-time, resulting in longer talent retention later
- Expand professional network
- Get paid for every project

Currently, we have ~7,600 students in our network representing 400+ universities and 39 different majors
