

**A comprehensive
system for
converting liquid
waste into energy that
can be installed
everywhere!**

European Zero Emission Solution

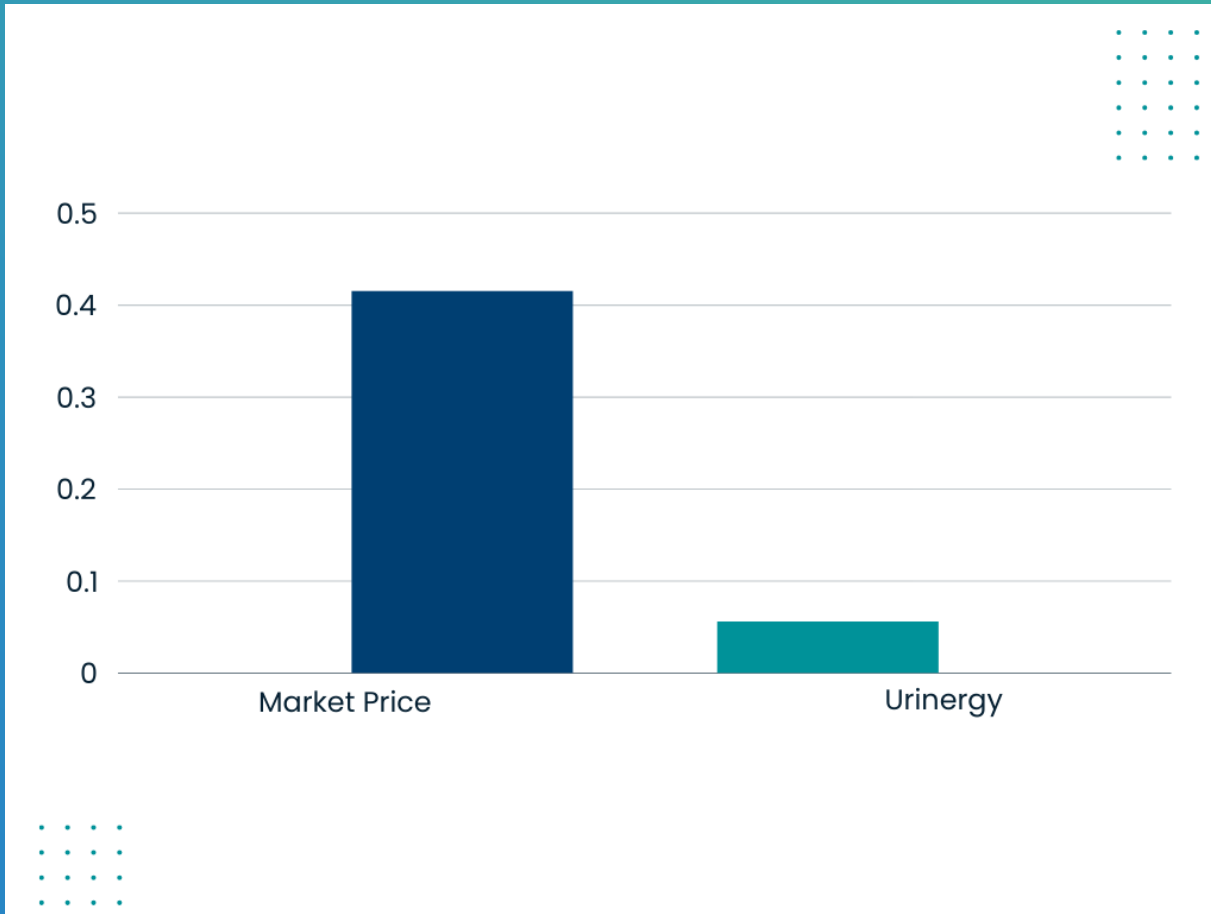

This dream can become a reality with innovative solution from Urinerergy

Our Market

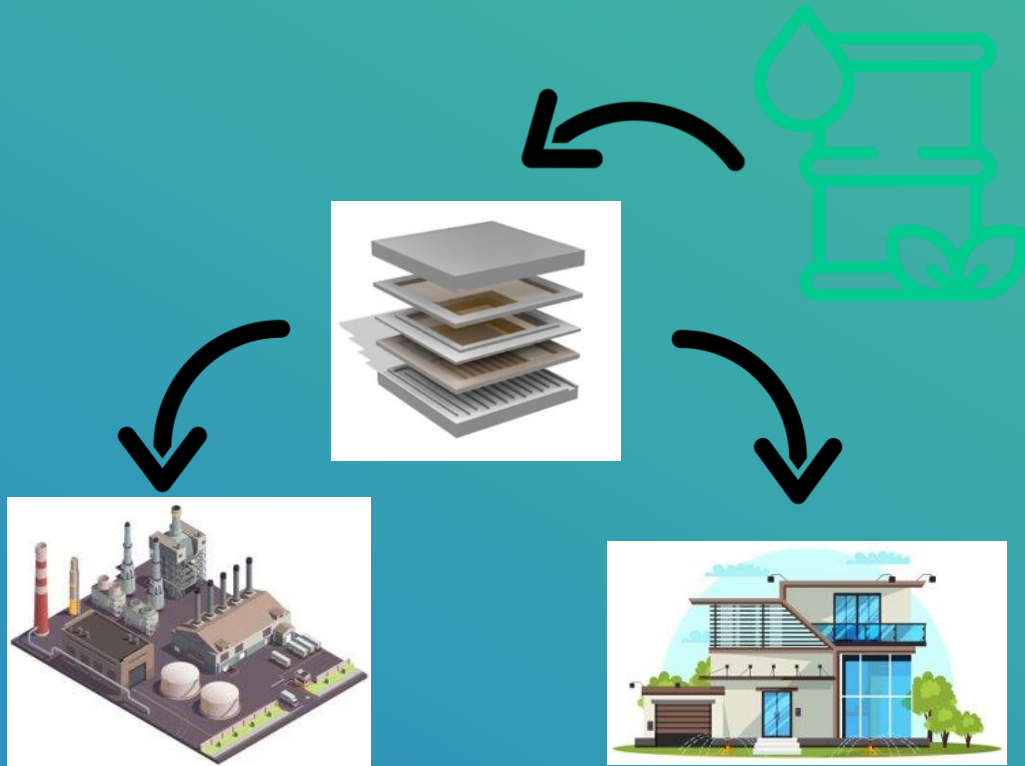

**Beachhead Market
PV-companies from the
6 largest Polish voivodeships**

**Our customers save 90%
of their energy costs**

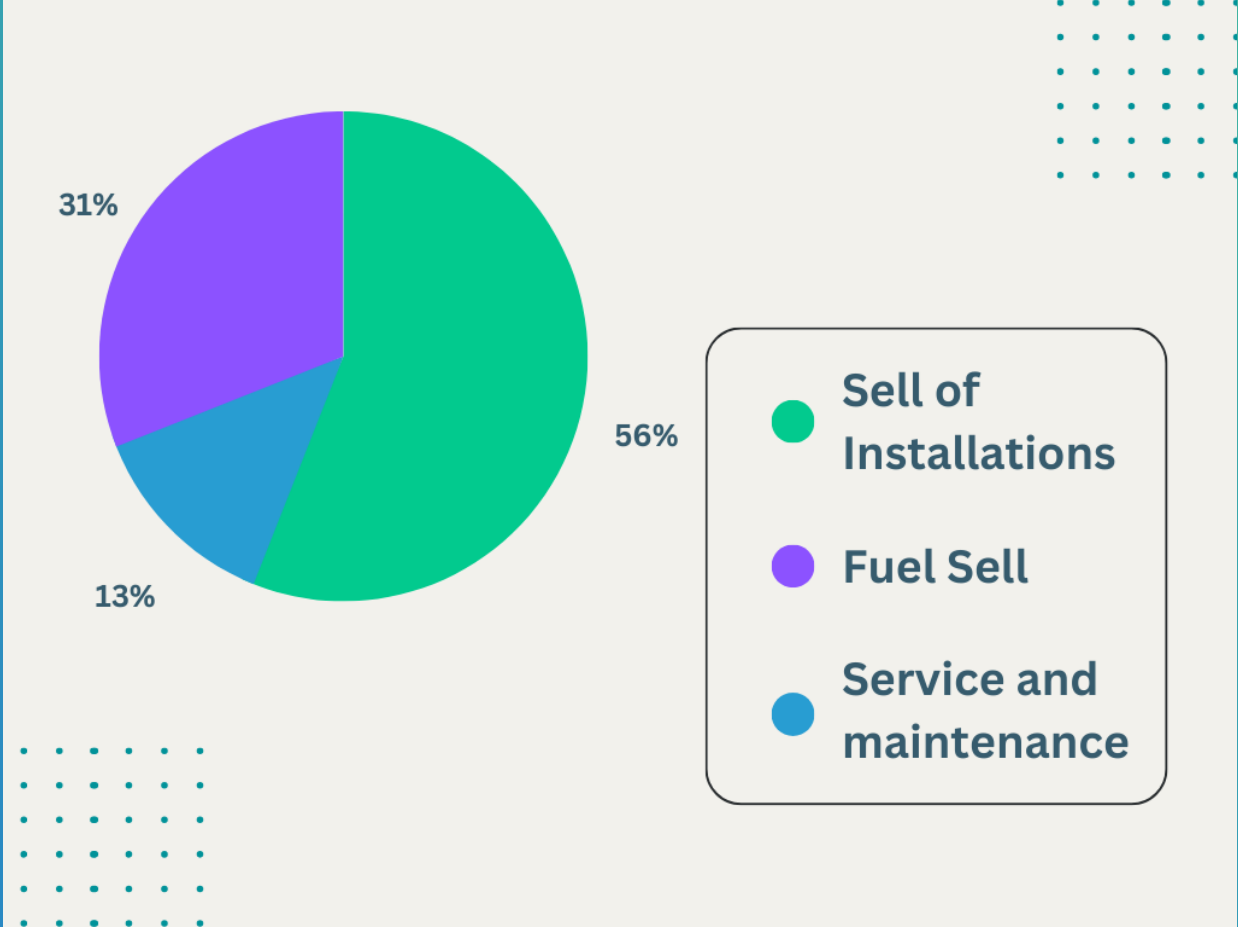

**We provide energy
at EUR 0.08 per kWh!
It is the cheapest,
stable, zero-emission
energy in the world!**

**The "Green Agregates"
that helps creating a
better future!**

Revenue Streams

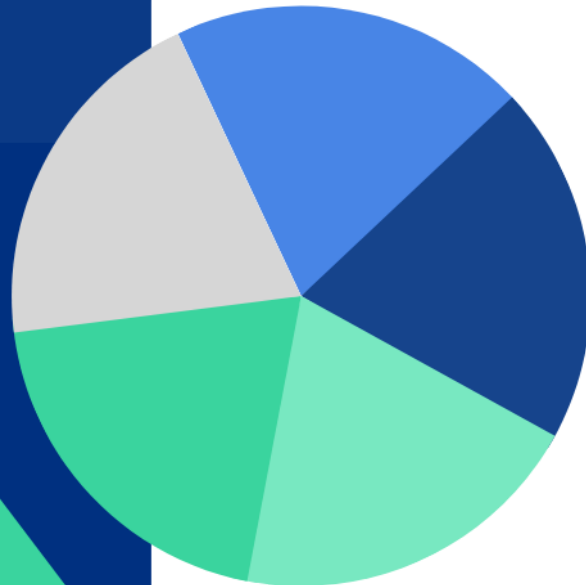

We deliver the future: Cheap electricity, clean planet

- **Cheap** electricity.
- **New jobs**
- **Zero emission** energy sources
- **Reduce operating costs**
- **Reduce greenhouse gas emissions**
- **Reduce the risk of respiratory diseases**

Unfair Advantage

- NEW, PATENTED SELF-DESIGNED HIGH PERFORMANCE AEM MEMBRANE
- LOW PRICE OF OWN DESIGNED SINGLE CELL
- KNOWLEDGE OF CELL MANUFACTURING PROCESSES WITH OUR MACHINERY PARK
- DEVELOPED METHODS FOR TESTING FUEL CELLS
- END OF TESTING OF THE PROTOTYPE IN THE MVP VERSION PLANNED FOR END OF 2023

**Development
from 2021**

Our team has:

- **soft skills to achieve sales goals**
- **technical knowledge and relevant calculations**
- a **machine park** allowing for low-volume production
- prototype, chemical and material facilities
- a **plan to enter the market** and acquire the first customer
- **patent protection strategy**

The logo for Urinerogy, featuring a stylized green 'U' with a lightning bolt inside, followed by the word 'rinerogy' in a black sans-serif font.
