The unique **freshBE** mist's night and day nurture and care routine has been **designed by women for women**, identifies and sets up a unique daily routine for true protection and care of OUR most intimate areas.

RECOMMENDED BY
GYNAECOLOGISTS

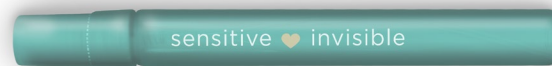

freshBE mist's **unique formula** was specially developed with the participation and recommendation of gynaecologists, with YOUR everyday long-term comfort in mind. **freshBE** mist is intended for the care of intimate areas, maintains natural bacterial flora and strengthens the skin's protective barrier as well as effectively neutralizes the bacteria responsible for the formation of unpleasant scent.

freshBE mist can also be used by women during pregnancy and breastfeeding.

freshBE
sensitive ♥ invisible

freshBE mist is recommended for daily intimate nurture and care. Thanks to the optimal selection of this wonderful **ELIXIR'S** ingredients comprehensively nourishes, it deeply moisturizes leaving delicate skin soft and resilient, from the moment it is first used..

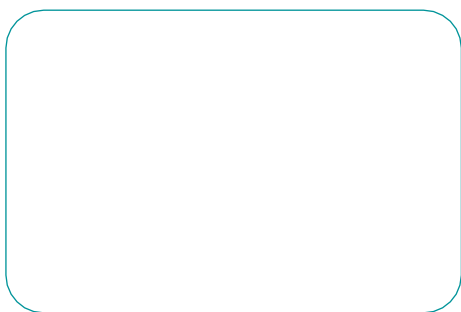

THE NURTURE MIST **freshBE**

- ♥ is the ideal product for the delicate and sensitive skin of the vagina,
- ♥ contains **lactic acid**, which tones the skin and restores its natural pH,
- ♥ contains **hyaluronic acid**, which moisturizes and cares for dry skin,
- ♥ contains **natural prebiotics** to help restore bacterial micro flora and strengthen the skin's protective barrier,
- ♥ gives a natural, fresh floral aura, additionally
- ♥ neutralizes the bacteria responsible for the formation of unpleasant skin scent.

Just like hair, the face or the whole body, female intimate areas need love, care and attention. **freshBE** mist is the only such exceptional **ELIXIR** designed for truly intimate nurture, to pamper YOUR delicacy.

How to apply freshBE mist: remove the cap, then turn the bottle upside down and press the atomizer to spray a fine mist
