

Grupa Powen-Wafapomp SA

FUTURE MINING FORUM & EXPO

Katowice, September 9–11, 2026

Booth no. 57

Poland's largest manufacturer of pumps for the mining industry

From coal and copper to critical raw materials – we draw on decades of experience to create mining solutions for the future.

KEY FACTS

We are the largest Polish manufacturer of pumps for the mining and industrial sectors.

We design pumps to operate in extreme conditions.

Every pump undergoes rigorous testing under conditions reflecting real-world operating parameters.

For generations, we have been helping to shape Poland's mining industry.

We have equipped over 100 mines with our pumps.

We operate the most advanced pump testing station in Poland, capable of testing pumps with a lifting height of up to 3,500 m and a capacity of up to 80,000 m³/h.

We specialize in designing and manufacturing mining fans that ensure efficient mine ventilation systems and safe working conditions underground.

We supply main ventilation fans with a capacity of up to 27,500 m³/min and a pressure head of up to 5,000 Pa.

AREAS OF APPLICATION

- ☒ Underground mining
- ☒ Surface mining
- ☒ Hydrotransport
- ☒ Metallurgy and mineral raw materials
- ☒ Conventional and nuclear power generation
- ☒ Oil and gas

POTENTIAL FOR INTERNATIONAL ASSETS AND PROJECTS

FUTURE DEVELOPMENT PROJECTS: North America, South America, Africa, India, Asia.

WHY CHOOSE US?

Grupa Powen-Wafapomp is a proven, long-standing partner of the mining industry, offering comprehensive support – from design, through production, to service – thanks to its in-depth knowledge of mining processes and experience in demanding mining applications.

We ensure stability, quality, and **safety!**
